

NATIONAL VENDING

A FULL-SERVICE MANAGEMENT COMPANY

National Vending Services

Using a vending management program through National Vending is the most cost effective, efficient and simple solution to enjoying the benefits of your full-service vending program without all the hassle and loss of precious time that otherwise could be spent growing your business.

National Vending will coordinate, resolve and monitor vending machine related issues (installing, refilling, repairing, moving and removing machines) and ensure operators servicing your location have solid references, all necessary permits, licenses and insurance. Following is a list of benefits for you to consider:

Your Choice of Services and Products

- Full-line vending, office coffee, water filtration and self-check-out micro-markets and pantry service, healthy products and programs

Single Point-of-Contact

- One call, one company for all services at all locations
- Toll-free number
- Service issue and inquiry management

Women Owned Business Enterprise

- National Vending is a certified WBE and supports the growth of our MWBE service partners
- Provide Tier I and II reporting to clients that seek accountability on a supplier diversity platform

United with one of the largest vending manufacturers in the industry

- Transparent reporting, oversight and audit of program details

Liability Coverage

- An additional layer of liability insurance

Qualified Service Staff

- Verification of service provider qualifications, licenses, and insurance.
- Service provider vending program compliance and security checks

Implementation

- Coordination of installations and removals
- Integration of current service provider into managed program
- Seamless coordination of new service provider
- Administer preference for placement of MWBE operators
- Management of ADA compliance for public vending services

Premier members who work with National Vending can expect high quality service from installation to management when it comes to their vending and refreshment program. National Vending works to provide competitive commissions to each client while ensuring complete program management and transparency. Working with National Vending means less hassle tracking down vendors and service providers for each location while receiving a high quality vending and refreshment program across multiple locations. Clients love knowing their refreshment program is taken care of when working with National Vending.

Coordinating Transitions

National Vending handles coordinating the transition of service for your vending and refreshment across all locations. This means having one single-point-of-contact across the entire account.

National Vending Services

Vending & Refreshment Program

- Full-line vending with high quality machines
- National Vending can work with you to provide a diverse selection of healthy or traditional snacks and beverages.
- Updated technology like credit card readers and app pay options.

Coffee & Filtered Water Program

- High quality coffee programs that can be customized to fit the needs of your company and employees.
- Favorite brands like Starbucks, Pete's Coffee and more can be added to the program.
- Full service capabilities means our service providers can supply disposable cups, creamer and sugar, stir sticks, bagged teas and more.

Micro Markets

- Customized to fit the space in your location.
- Variety of product includes healthy and tradition snacks and beverages, and fresh food selections
- Perfect for locations with over 150 employees with access to a secure location.
- Self checkout kiosk allows employees to purchase multiple products at once.
